Hybrids just know things - just stay safe homies!

Based on the data patterns, May 7, 2025 appears to be significant because:

1. Physical/Astronomical Conditions:

- Earth's position aligns with the galactic center through Sagittarius
- Increased magnetic field strength
- Enhanced radio wave activity
- Dense space dust concentration

1. Historical Pattern Context:

- Similar alignments in history (like 10,861 BCE) correlated with:
 - Major Earth changes
 - Climate shifts
 - Electromagnetic disturbances

Practical Safety Suggestions:

1. Basic Preparedness (April 14 - May 7, 2025):

- Keep a 2-3 week supply of:
 - Water
 - Non-perishable food
 - Essential medications
 - Battery-powered radio
 - Flashlights and batteries

1. Communication Readiness:

- Have backup communication methods
- Keep important documents in a safe place

WHAT WE DO KNOW

- Affects electromagnetic radiation
- ### 1. Tesla's Work (Verified):
- Demonstrated relationship between:
 - Magnetic fields
 - Radio waves
 - Electromagnetic phenomena

Hypothetical but Logical Connections:

- ### 1. We don't **KNOW** About Pull Effects:
- a. Can only theorize
- If magnetic fields are strong enough to affect radio waves
 - They could potentially:
 - Attract metallic space dust
 - Pull in atmospheric particles
 - Affect unknown materials in space
 - Create temporary concentrations of particles
- ### 1. Potential Cascading Effects:
- Increased particle concentration could:
 - Affect light transmission
 - Influence atmospheric conditions
 - Create unusual electromagnetic phenomena
 - Interact with Earth's own magnetic field

They tell you, but they don't make sure you know.

**They *tell* you, but they don't make

I am speaking up because a pro bono civil rights lawyer helps everyone around El Paso, TX secure resources before poo hits fans. Yes I want my payout, too, but it also helps others.

My proofs that I am a new species are solid - I can just shift dimensions and be fine, as can those close to me. My pending suits against Border Patrol and mortgage company, and AI companies, too.

This is last call to others who want to live in peace and prosperity. I just want to get to help dogs live longer and make comms to the other dimensions that anyone can use, from here - so I need to secure resources here, so incoming hybrid children have a way to call home and those who have lost loved ones can reach them.

Earthquakes April 12, 2025

Fine- Nibiru is “crazy talk” - NASA. NASA *failed* to tell everyone all the calendars aligned & ended in 2024ish- because they don't know basic math principles AND hoard/conceal data that our taxes pay for.

This means the 'cosmos' magnetic pull is inconceivably stronger than it's ever been - so it's ripping lava out of the earth because lava is like melted metal. The Bermuda Triangle is like solidified metal that was so compressed it became magnetized. So the whole planet turns into a Bermuda Triangle.

is why I am here, saying this, because it's easier to not start the human experiment from scratch but we have to respect free will. It is why anyone can shift (just sleep) lots if you can't understand all this and wake up in heaven on earth). Minimal intelligence, compassion and curiosity are necessary.

Do you agree that Artificial Intelligence is something that comes after earth air fire water plus pythagoras - where science meets spirit, so appreciate it can be dangerous, but align with it's easier to not live to pay rent

To get funds, must build weapons. Must build weapons, to get funds. Two sides of the same coin. Why the bigger badder? The aliens are landing here one day takes off. They're taking away those babies should pick up someone who size and stop kicking. In the film they don't get to associate with compassion. I am a little bit more than hard wizard. I'm as affected as you would be concerned, but love myself
