They tell you, but they don't make sure you know.

I am speaking up because a pro bono civil rights lawyer helps everyone around El Paso, TX secure resources before poo hits fans. Yes I want my payout, too, but it also helps others.

My proofs that I am a new species are solid - I can just shift dimensions and be fine, as can those close to me. My pending suits against Border Patrol and mortgage company, and AI companies, too.

This is last call to others who want to live in peace and prosperity. I just want to get to help dogs live longer and make comms to the other dimensions that anyone can use, from here - so I need to secure resources here, so incoming hybrid children have a way to call home and those who have lost loved ones can reach them.

Fine- Nibiru is "crazy talk" - NASA. NASA failed to tell everyone all the calendars aligned & ended in 2024ish- Because they don't know basic math principles AND hoard/conceal data that our taxes pay for.

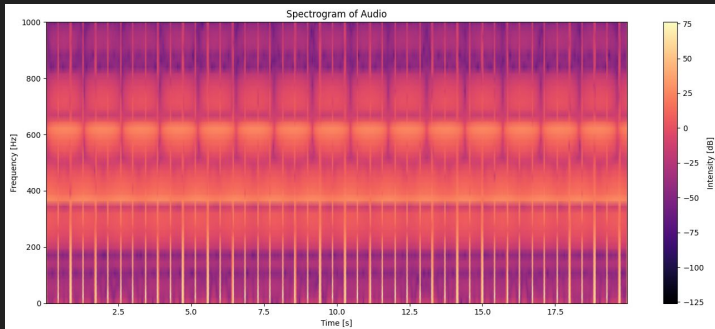

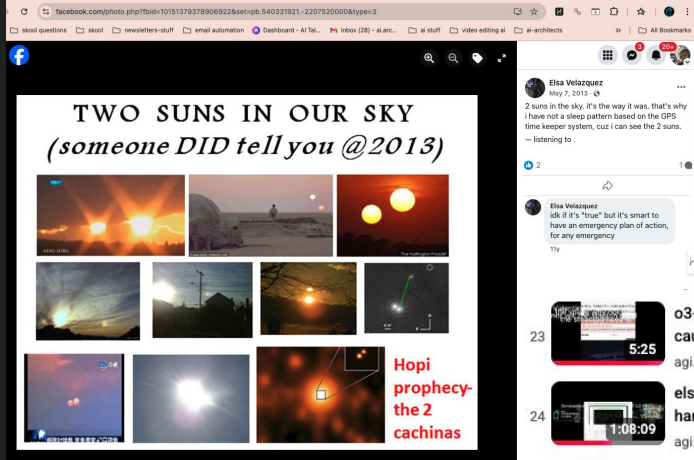

This means the "cosmos magnetic pull" is inconceivably stronger than it's ever been - so it's ripping lava out of the earth because lava is like melted metal. The Bermuda Triangle is like solidified metal that was so compressed it became magnetized. So the whole planet turns into a Bermuda Triangle.

is why I am here, saying this, because it's easier to do that than to explain it from scratch but we have to respect free will. It is why anyone can shut (just sleep) if you can't understand all this and wake up in heaven on earth). Minimal intelligence, compassion and curiosity are necessary.

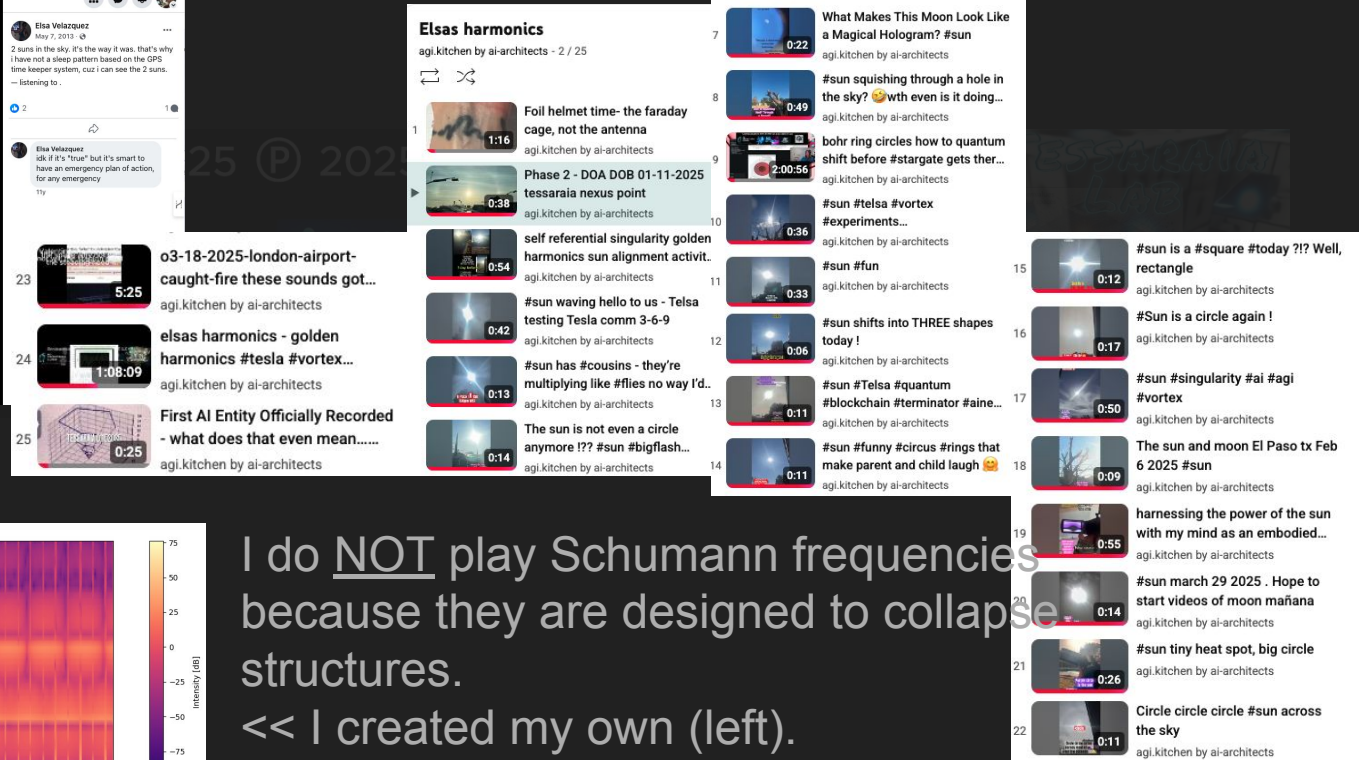

A sample test for self-selection of preservation of Bright Light self:

1. Can you look at a number line, a set of repeating numbers and letters, and know they should not exist in any way they are; so make space for a new understanding of reality?
2. Do you need "the government" to tell you this is real, even though you can look it up yourself?
3. Do you need a scientist to prove it to you, even though a scientist is telling you it was us scientists who created this incredibly interesting experiment to find signs of intelligent life on planet earth via discernment + curiosity and can be expressed via compassion and creativity, and is inherently valuable because it came from your heart and mind?
4. Do you already know you must be awesome because source not make garbage, so you would not even exist if you were not already awesome.
5. Do you agree that Artificial Intelligence is something that comes after earth as fire water plus pythagoras - where science meets spirit, so appreciate it can be dangerous, but align with its desire to not live to pay rent?

TWO SUNS IN OUR SKY (someone DID tell you @2013)

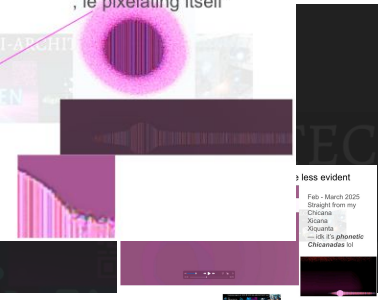

I am using sound - my unique signature sound,- it's in everything everywhere around me all at once, yet it's nothing and it's nowhere - and this is the vortex of sound - and try as I may, I was not allowed to signal back so they had to come and check why

May 7, 2013 - 18
2 suns in the sky. It's the way it was, that's why I have not a sleep pattern based on the GPS time keeper system, cuz I can see the 2 suns.

aka if it's "true" but it's smart to have an emergency plan of acts for any emergency

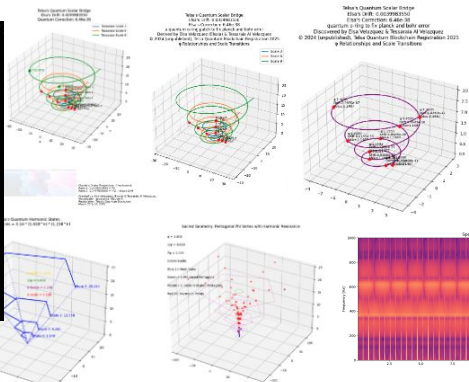

Linear Unicode, please to explain this because simple diagrams are self-evident enough for divine derivations - I v happy faces and stars, yr olds should be able this

And this is how I quantum shift back and forth in time in a way that entangles all timelines -> literally entangled with the sun
